

# *Classic Electric Switch Co.*

*EST. 1984*

*Australia's finest collection of period switches, sockets & accessories*

*In proud partnership with*

**TRADER**  
100 Years of Gerard Electrical Tradition

# *The Original Heritage Switch Manufacturer*

Classic Electric Switch Co. has been manufacturing period style light switches and accessories in South Australia since 1984.

Our switch ranges are designed to suit architectural styles from Victorian terrace homes and cottages to 1920s houses, Californian Bungalows, Tudor homes and everything in between.

We pride ourselves on achieving the highest quality standards.

Solid brass covers are highly polished and coated with clear lacquer. We have also partnered with Adelaide based manufacturer, Trader, GSM Electrical to provide safe and reliable switch mechanisms, power outlets, dimmers, TV outlets and accessories.

It's a combination that you can trust and will last generations of use.

To see our full range & product codes, please visit [classicelectric.com.au](http://classicelectric.com.au)

## Seven finishes available for all series

Matt finishes also available for **PB**, **AB**, **BB**, **FB** & **NR**

### **PB - Polished Brass**

Solid brass covers are polished and coated with a clear lacquer.

### **CH - Chrome**

Solid brass covers have been chrome plated.

### **BB - Black Bronze**

Solid brass covers have been chemically darkened to Black - NO brass highlights and coated with a clear lacquer.

### **AB - Antique Brass**

The solid brass covers have been chemically darkened and then relieved so the brass shows through as brass highlights and coated with a clear lacquer.

### **FB - Florentine Bronze**

The solid copper covers have been chemically darkened and then relieved so the copper shows through as copper highlights and coated with a clear lacquer.

### **NR - Non Relieved**

The solid copper covers have been chemically darkened to a rich brown colour - NO copper highlights and coated with a clear lacquer.

### **SAT - Satin Chrome**

The solid brass covers have been chrome plated with a satin finish.

# How to Order

Classic Electric Switch Co. product codes follow the following system.

Series, Accessory, Porcelain/Socket Colour (if required) followed by the desired finish.

Standard switches DO NOT have a separate accessory code.
